THREE MONTHS.....\$1.00.
PER WEEK......10.

So far we seem to be killing time instead of killing Spaniards.

Late dispatches say the Spanish government is on the point of expelling all Americans from Spain.

Perhaps the reason why Spain hasn't crossed over is because she hasn't been able to buy any coal on credit for steaming purposes.

Gen. Miles held another conference at Washington yesterday. Holding conferences is about all the General seems to be doing in the campaign.

Train robbers held up a train in Texas and went through it to the tune of \$20,000. It must have been the State Press Association's excursion train, judging by the richness of the haul.

The Southern Baptist convention meets at Norfolk, Va., this week, the session beginning on the 5th and lasting until the 12th. It will be a great gathering of many of the ablest men in the denomination.

The war liar has begun to flourish in the South and wild rumors of all sorts are floated every day. Don't believe what you hear until its truth is assured. For instance wait until you see it in THE KENTUCKIAN.

A recent discovery of gold on the islands in the Yukon River has caused a stampede from Dawson City of those who could not secure claims on the Klondike. Navigation is expected to be resumed to the gold fields this month.

Gen. Brooke, at Chickamauga, is doing some talking calculated to encourage the Spanish side. Somebody should see that he does not, like "Tennyson's Brook," run on and on forever with this kind of talk.

Butcher Weyler made a speech in the Spanish Senate Friday and urged the government to take the offensive against the United States at once, both on land and sea. If Spain wants to be "offensive" in several different ways, let her send Weyler with an army to this side of the sea. And be sure to let Weyler's friends tell him good-by.

The Spanish fleet has left Portuguese waters, but where its destination is has not been made known. It is believed that the squadron will return to the Canary Islands and calmly await, in a Spanish port, for America to assume the aggressive and cross the Atlantic. She appears to be trying to get the fighting on her own side of the ocean.

A great many obstacles incident to the establishment of a new paper are being gradually overcome by THE DAILY KENTUCKIAN and we will soon have things running smoothly. We have made arrangements by which the mail catches all of the early morning mails and subscribers in distant parts of the county are thereby enabled to get THE KENTUCKIAN in the forenoon, and ahead of any other daily paper.

The enterprise of THE KENTUCKIAN in giving up-to-date illustrations of the war is commended on all sides. The excellent map of Cuba yesterday was the first correct representation of the scene of war that has been given to the readers of any local paper in this section. Taken in connection with the discussion of the plans for invasion, it made the whole plan of occupation clear at a glance. This feature will be a prominent part of THE KENTUCKIAN's war reports.

The proposition to have the "regulars" invade Cuba while the volunteers remain at home to become injured to war, is a thinly disguised trick of the army officers to keep the State troops from getting any of the glory for licking Spain. As the regular army has been on a peace basis for thirty odd years, it is difficult to see how it has been hardened to actual service by occupying forts in Chicago and other cities. Fighting and not dress parade is what we need and the sooner the better.

The capture of a supposed spy in New Orleans confirms the belief that Spanish agents are at work in this country. The powder mill explosions at San Francisco and Dover, N. J., are believed to have been their work. A bomb was found in one of the Committee rooms under the Senate chamber recently, and it is charged at Washington that ex-Minister Polo, from Toronto, is directing a lot of Spanish agents in this country. A few first class hangings are necessary to let the people know that the authorities are alive to the situation.

YELLOW JACK IMMUNES.

Representative Meyer Estimates the Number Ready for Cuba at 5,000.

Washington, April 30.—Representative Meyer, of Louisiana, a Democrat of the Naval Affairs Committee, had a conference with the President over the yellow fever aspects of the campaign. The President asked him how many immunes New Orleans could furnish for service. Gen. Meyer replied that that was somewhat conjectural at this time, owing to the great sanitary improvements in the city in the past 20 years, but he believed 5,000 would be a safe estimate of those ready to go who were immune from fever. The President is understood to desire these men for early service. One suggestion made is that they be placed in charge of the city of Havana after it is taken.

Mr. Meyer announced his readiness to accept a command if his services were asked for, though he added that he was not pressing any candidacy.

Pon Points.

Pon, Ky., April 30.—The road graders are in our section trying to grade the roads, but there is too much rain for them to do much in that direction.

Mr. Henry Johnson, of Hopkins county, made a flying trip through our neighborhood. He stayed all night with Mr. E. M. Barnes on Tuesday night.

Corn is coming up badly.

Somebody broke into our school house last Tuesday night and tore all of the best books up. They left some in the branch near by the school house.

There is a tolerably good crop of fruit left after the frost.

Brother Pope preached at the Christian church here last Monday and Tuesday. HONEY BEE.

The Top of the Market.

Messrs. Gaither & West sold this week for Mr. Taylor Fields, of Mayfield, Ky., a fine Austrian wrapper at \$15.75. This is the highest price of the season. Mr. Fields is one of the best packers in the Western District and has already sold 20 hogsheads ranging in price from \$11.50 to \$15.75. Mr. Fields has been selling at Hopkinsville, Mayfield and Paducah, but the highest price obtained for him was the \$15.75 hogshead sold by Gaither & West.

Whisky Not Touched.

Washington, April 30.—Congressman Evans says: "The war revenue bill passed by the house today contained no whisky legislation what ever. I hope early next week to secure favorable consideration by the sub-committee of the bill for the regulation of outages revenue."

Leaves For Elizabethtown.

L. & N. section foreman Butler left yesterday for Elizabethtown where he has been given his old section on the main division. Mr. Butler came from Elizabethtown to this city. His family returned with him. He is a thoroughly competent man and one of the company's most trusted officials.

Pair Of Fine Hares.

Mr. Chas. H. Layne sold to Wm. Buckner, of Pembroke, this week a pair of very fine harness mares at a fancy price.

For Sale.

I have some nice family horses at my stable for sale. C. H. LAYNE.

Lieut. Bassett, of Company D.

War Risks.

Following telegram received.
"The risk of military service in the existing war with Spain will not effect the Accumulation Policy of the 'New York Life.' It will therefore continue to issue policies absolutely free of all conditions to good citizens whether members of the National Guard or not."

W. T. COOPER & CO.

The next meeting of the Second District Teachers' Association will be held at Madisonville.

TOBACCO NEWS.

HOPKINSVILLE MARKET.

(Reported by J. H. Eggleston, of Cummings & Eggleston Co., (Incorporated,) buyers and order of dealer in and handler of leaf tobacco.)

Hopkinsville, Ky., April 27.—The market opened up this week with more life and snap than any time this year. Hence it is the Banner sale of the season in point of light prices. Prices from 12 to 14¢ was common. The buyers were in attendance in full besides a great many visitors and representatives of the Regie contractors, also Mr. Ferigo the Italian contractor with Mr. Emmett Morrow. Hence the competition was strong on all grades at all suitable for either purposes. The offerings were about the best that have appeared on the breaks. Receipts are falling off and it appears that the bulk of the tobacco is in that will naturally appear on the market. Hence the fight is now on as each one of the buyers wants to get his share of the pie, while they have a chance. Confidence in future prices and the market abroad seems to cut no figure.

To the Driving Public

The assortment of vehicles which we now have on hand is the result of a careful study of the wants of the people of this section. We have the elevated gear for country driving and the low hung carriage for city use.

We have the handsome cut-under surreys, for short turning, the plain jump seat, the single seated phaeton, and the knock about cart. We have some very stylish traps with adjustable seats, and single buggies by the car load. In these we have end, side, or coil springs, bracket front or piano bed. Comfortable, common sense buggies with wide seats, and H. M. T. buggies for the courting youths of this vicinity, with rubber tires if you want them that way.

Among the high grade buggies we sell are Delkers, Troys and Woodhulls. We handle a number of cheap buggies—Ames, Enger, Parry and Haydock.

Buy Your buggies from us and WE will
Be here to make our guarantee good.
